

Datasheet QC000-QQ

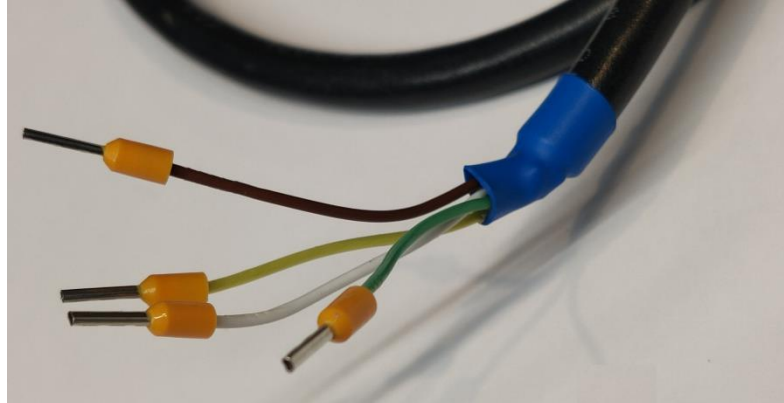

Cable data sheet

Principle

Power and Modbus RTU in 2x2 twisted pair cable

Description

To connect the remote transmitters and modules to the analyzer in heavy duty industrial outdoor environments, the QC000-QQ shall be used.

Features

- Very strong jacket of black PUR for outdoor use
- 2x2 twisted pair, shielded per pair for long distance non-interruptive connections
- No UV light influence
- No water ingress
- Small bend radius of 20 cm
- Produced by Habia© Cables on Arenal PCS BV specification.

Specification

- OD: 8 mm
- 4 wires each 0,5 mm² / AWG 20
- Temperature range: 0-55°C or 0-110°C
- Weight: 90 g/m
- Inner core: copper

Connectivity

- Bare wires on both sides

Colour coding

- Brown: 24Vdc
- White: 0 Vdc (ground)
- Yellow: A+
- Green: B-
